

ULTIMA

A NEW HORIZON
IN NON - INVASIVE
BEAUTY TREATMENTS

ULTIMA

OVERVIEW

WHY E-FIT ULTIMA?

Our legacy in pioneering EMS technology paves the way for this advanced quest into the world of beauty, focusing on **anti-aging and aesthetic refinement**. Since 2010, E-Fit has led the EMS industry, now innovating in beauty with our new E-Fit ULTIMA series. ULTIMA Face and ULTIMA Shape epitomize our commitment to **non-invasive, efficient** beauty solutions.

These devices harness precise impulses for effective **skin rejuvenation** and **muscle shaping**, redefining beauty routines with highly efficient treatments.

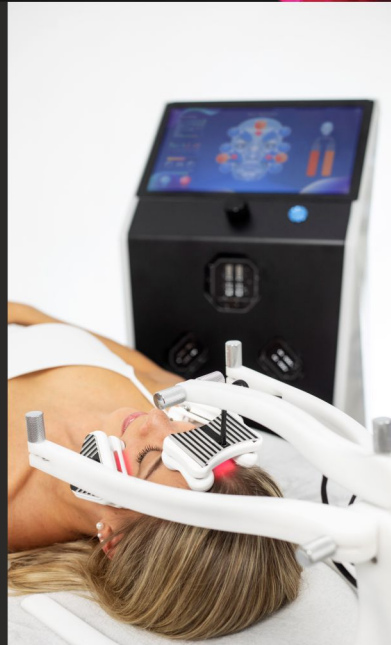

E-Fit ULTIMA means merging expertise, innovation, and elegance to pave your journey towards timeless beauty.

THE ULTIMATE NON-SURGICAL FACELIFT

Experience the power of a non-surgical facelift with E-Fit ULTIMA. The advanced **HILIFT** Therapy (High Intensity Light and Electro Facial Therapy) helps to redefine beauty and rejuvenation.

E-Fit ULTIMA isn't just about surface-level beauty: it delves deeper, offering an intense uplift of the skin and the underlying muscles.

HOW THE MAGIC HAPPENS

DEEP MUSCLE TONING WITH ADWT

E-Fit ULTIMA uses high precision focused electrical impulses to gently but effectively stimulate facial muscles. Think of it as a focused workout for your face that tones and tightens the muscles, providing a natural lift from within. This innovative approach goes beyond traditional treatments and offers deeper and longer lasting facelift without surgery.

SKIN REJUVENATION

With HILIFT featuring EMS and photobiomodulation, our device deeply rejuvenates the skin by enhancing collagen production, leading to a lifted, smoother complexion. Red light therapy boosts cellular energy, aiding in skin repair and reducing wrinkles, scars and inflammation. It's effective for a range of skin conditions, including improving skin texture, healing damage and promoting overall skin health.

NON-SURGICAL AND NON-INVASIVE

Say goodbye to the downside of surgery. E-Fit ULTIMA offers a comfortable, non-invasive solution to deliver a comprehensive facelift experience. Each treatment is chemical free and painless. Enjoy the benefits of a facelift without the downtime or discomfort.

COMPREHENSIVE FACIAL REVITALIZATION

A treatment with E-Fit ULTIMA is more than just a facelift; it's a complete facial rejuvenation. By targeting both the muscles and the skin, it ensures a natural transformation, enhancing your facial contours and skin vitality.

NO RECOVERY TIME

E-Fit ULTIMA facial treatments are designed for efficiency and convenience, allowing clients to enjoy the benefits of advanced rejuvenation without any downtime. This means you can return to your daily routine immediately after treatment, with no need for a recovery period.

THE ULTIMATE SHAPING & TREATMENT SYSTEM

The new generation of facial and body treatment systems from a market-leading EMS company.

01

OUTSTANDING DESIGN

- Medical grade safety features
- Fanless ultra silent operation
- 12-channel thermocare suit with superfast, dual-zone infra therapy
- Rolling stand with 15.6" touch screen & large multifunctional controller

02

BODY TREATMENT MODES

- **ThermoCare Suit Plus** (infrared heat-therapy built into our whole-body EMS suit)
- **Tripolar RGB treatment module** (395nm, 520nm, 640nm)
- **Multi wavelength RED light therapy module** (660nm, 730nm, 940 nm)

03

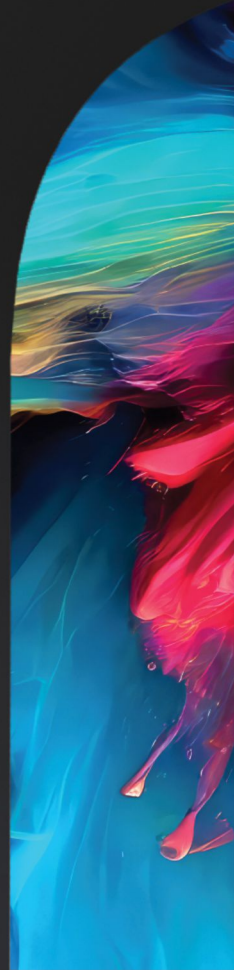

INNOVATIVE FEATURES

- **ADWT (Advanced Dynamic Waveform Therapy)**
Targeted muscle and skin stimulation for a sculpted, toned physique
- **Customizable Treatments**
Personalized sessions to match your fitness goals

04

BENEFITS

- **Enhanced muscle tone**
Discover a firmer, more defined body
- **Sculpted silhouette**
Achieve the shape you've always desired
- **Revitalized energy**
Feel rejuvenated after each session, ready to conquer your day
- **Enhanced skin radiance**
Enjoy visibly firmer and smoother skin
- **Boosted long-term metabolism**
Experience lasting skin health and vitality

A BLEND OF ELEGANCE AND PRECISION

E-Fit ULTIMA devices merge cutting-edge technology and elegant design to elevate the professional standards of beauty clinics and aesthetic centers. Crafted for excellence, each device combines sleek, modern aesthetics with native functionality, ensuring a seamless treatment experience for professionals and clients alike.

ULTIMA

PROFESSIONAL ELEGANCE

With modern design, ULTIMA devices enhance the professional ambiance of your clinic, reflecting the quality of services you provide.

EFFICIENT OPERATION

Designed with professionals in mind, the intuitive interface ensures precise, hassle-free treatments, optimizing both time and comfort.

PREMIUM MATERIALS

Constructed with the finest materials, E-Fit ULTIMA devices are built to endure the pace of a high demand clinic or center, ensuring long-lasting performance and durability.

ATTENTION TO DETAIL

From the smallest component to the overall design, every detail of the ULTIMA devices is crafted with precision and care. This attention to detail guarantees not only the comfort and convenience of your clients but also the smooth, uninterrupted operation of your services.

RESULTS

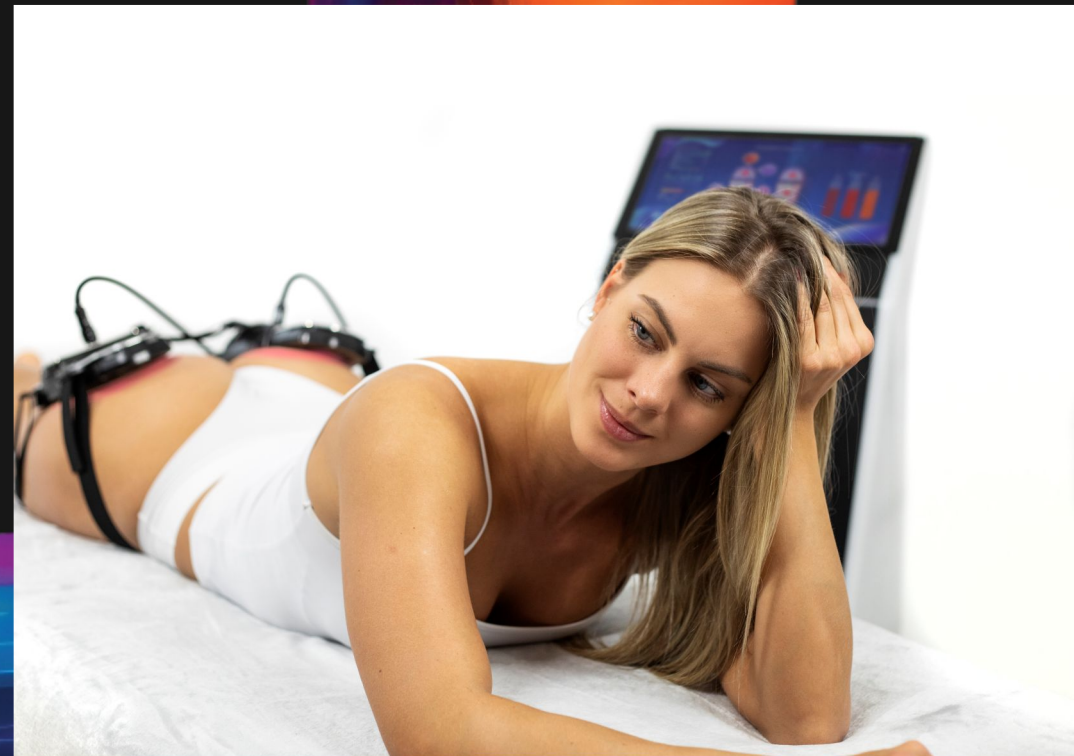

PROVEN EFFICACY AND TRANSFORMATIVE RESULTS

E-Fit ULTIMA is not just a promise; it's a proven solution. Clinical studies confirm the effectiveness of EMS and LED in skin rejuvenation, showcasing our commitment to evidence-based beauty solutions.

80%

Based on clinical studies*, 80% of the subjects reported improvements in their skin texture, firmness and muscle elevation when using a neuromuscular electrical stimulation device. E-Fit ULTIMA enhances this effectiveness by incorporating LED therapy.

**Kavanagh, S., Newell, J., Hennessy, M., Sadick, N. (2012). Use of a neuromuscular electrical stimulation device for facial muscle toning: a randomized, controlled trial. J Cosmet Dermatol, 11(4), 261-6. DOI: 10.1111/jocd.12007 <https://pubmed.ncbi.nlm.nih.gov/23174048/>*

TECHNICAL SPECIFICATION

E-FIT ULTIMA

HOUSING MATERIALS AND CONSTRUCTION

Plastic, acryl and CNC milled aluminium case housing

USER INTERFACE DISPLAY

15" TFT LCD touchscreen display serves as the main control unit

ENERGY TYPE

Electric stimulation and Low-level laser therapy

PHOTO BIOMODULATION LED LIGHT WAVEFORM

395nm, 520nm, 640nm, 670nm, 730nm, and 940nm

LIGHT ENERGY

Total radiant flux⁴⁾ ΦE typ. 120W

PHOTOSYNTHETIC PHOTON FLUX

$\lambda = 400 - 700\text{nm}$ ΦP typ. 792 $\mu\text{mol/s}$

ELECTROSTIMULATION ENERGY

Biphasic rectangular pulse modulated by trapezoidal

- Max. output voltage [V]- at 500 Ω 48V
- Max. output current 75mA @ 10 - 650 Ω

ELECTRODES

Stainless steel 316, Ultima Conductive hydrogel

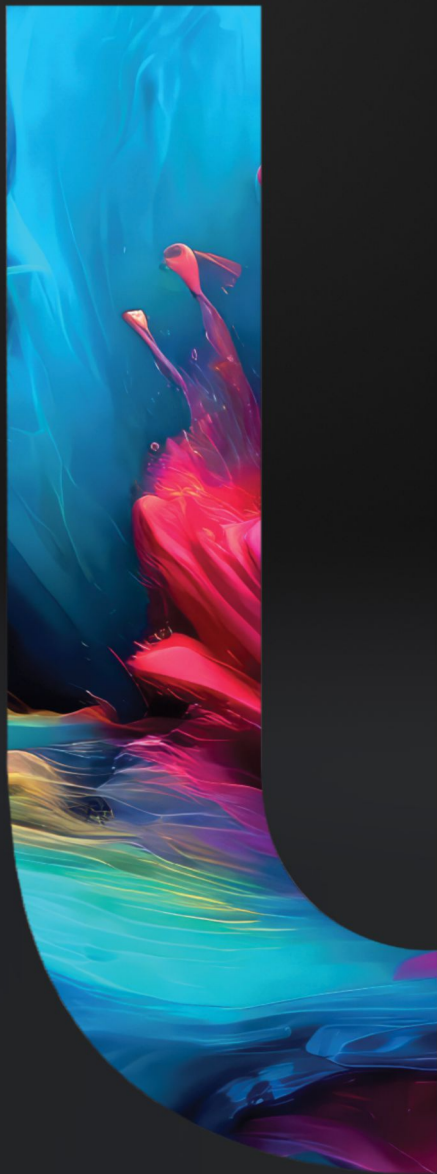

SPECIAL FETAURES

- Multi language themes
- Customized program setup
- Online trainer and program database
- Dual microcontroller
- Fanless passive cooling
- NLT (No Load Trip)
- 4kV isolation (Medical-Grade)
- Heavy duty rotary encoder
- Cutting edge CNC milled enclosure
- IST+ (Impulse Shift Technology+)
- ADWT (Advanced Dynamic Waveform Therapy)
